ABSTRACT

Extended material for the PVLDB revision: BIRD refusal reasons, the local portfolio, the rank test, DuckDB timings, and the Laplace-plus-count baseline. Manuscript numbers that the repository logs do not contain are not replaced; see paper/REVISION_NOTES.md.

PVLDB Reference Format:
Sanjay Mishra. Appendix. PVLDB, 20(1): XXX-XXX, 2027.
doi:XX.XX/XXX.XX

PVLDB Artifact Availability:
The source code, data, and/or other artifacts have been made available at https://github.com/sanmish4ds/least-privilege-llm-db-agents.

1 BIRD REFUSAL REASONS

Each gold query alone, fresh session, $k = 3$. Financial, then debit card. Rank or group by a protected value: 5, 3. Filter on too few entities: 5, 2. Aggregate under a protected filter: 1, 1. Filtered count over a join: 2, 2. Aggregate of an expression: 3, 6. Aggregate over too few entities: 1, 11. Shape cannot be audited: 2, 2.

2 QUERY PORTFOLIO AND RANK TEST

No language model, 1,500 customers, 100 targets, 100 queries. Minimum group size and no audit recovered all 100. Nested pairs recovered all 100 and stopped bisection. The linear audit recovered none (Wilson upper bound 3.7%). A two-customer sum matched both balances in 100 sessions and determined 0 individuals. 400 integer-weight trials had 0 float-versus-rational disagreements. Weights near 10^9 are a counterexample to the 10^{-9} test.

3 DUCKDB AND LAPLACE

Aggregated key weights on one million customers: 9.4 ms median. 1000 range updates, maximum 3.71 ms. Laplace plus a noisy count of at least 3, basic composition, not OpenDP: at $\varepsilon = 100$, median relative error 1.8% and difference-within-10% on 11.2% of draws.

4 DATA, CODE, DECLARATIONS

Code and caches: https://github.com/sanmish4ds/least-privilege-llm-db-agents. Funding and conflicts: none. Besides the models under study, the author used Claude to help restructure the text and the experiment code. The author is responsible for the claims.

5 NOT RUN

No local model server was up. Snowflake and BigQuery were not contacted. Commands are in the revision notes.
